

Turn your invoices into working capital, now!

Pacific Invoice Finance lets you use Invoice Finance to access the working capital you need to run, strengthen and grow your business.

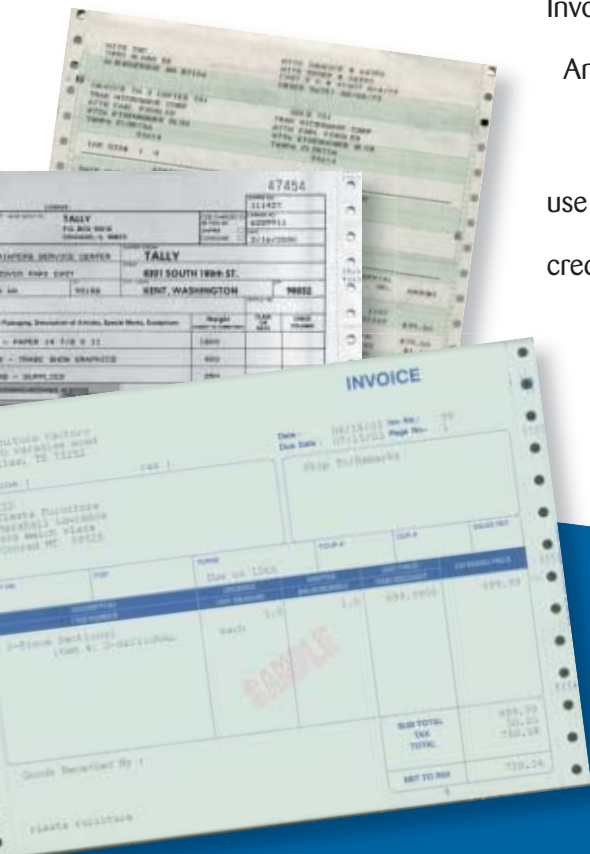

Invoice finance gives you instant funds using your debtors as security.

And it's totally confidential.

Instead of waiting 30, 60, or even 90 days for invoice payment, you can use your money as invoices are generated. That means you can; pay your own creditors, save by paying for goods up-front, grow or invest in your business.

Funds from invoice finance grow as your business grows - providing you with more working capital when you need it most.

(Much more flexible than a conventional overdraft!)

THE BENEFITS

- Up to 90% of the value of your invoices as they are raised
- Reduced administration
- Working capital that grows with your business
- No additional security required
- Confidential

Our experience is as good as cash.
